

Australian Population Association

12th Biennial Conference

population and society: issues, research, policy

15-17 September 2004 - Canberra, Australia

Recent surprises and changes in Australian demography

The Australian National University

Abstract

This is an update of a paper with the same title delivered at the 2002 conference, the text of which is available at

<http://demography.anu.edu.au/Publications/ConferencePapers/WCOS/Futures.pdf>

Because of the wide range of items in the 2002 paper, the 2004 presentation will focus on Woman's Day type topics such as

- Why I'm glad I'm not a baby boomer
- What Federation Fellows have in common with AFL stars
- Do social scientists know what women want?
- What Ita Buttrose can tell us about ageing and the workforce

Paper prepared for the 12th Biennial Conference of the Australian Population Association, 15-17 September 2004, Canberra.
