A Model for Projecting School Enrolments in Queensland

Alison Taylor, Lorraine McDonald and Jim Cooper

Planning Information and Forecasting Unit, Department of Local Government, Planning, Sport and Recreation: (www.lgp.qld.gov.au/pifu)

This paper describes a new model for projecting school enrolments in Queensland state schools. The paper will discuss why a new model was needed, what the features of the new model are and some new datasets that are products of the modelling process that have considerable potential for improving the planning of schools in Queensland.
